ABOUT ME

A professional **Web Developer** skilled in *PHP, Laravel, JavaScript, React, Vue.js, Angular, and Node Js*. Experienced in creating responsive websites with a focus on code quality, security, and database management.

WORK EXPERIENCE

Afghanistan Central Bank (Da Afghanistan Bank) - Afghanistan, Kabul

Software developer

[12/03/2025 - Current]

- Develop secure fintech and digital banking applications using **Java, Spring Boot, Angular, and React**.
- Build microservices and event-driven systems using **Kubernetes, RabbitMQ, and Kafka**.
- Implement **ISO 8583**, payment integration, QR payments, USSD banking, and online banking solutions.
- Integrate banking, payment, and third-party financial systems.
- Ensure system security, scalability, performance, and reliability.

Ministry of Higher Education - Afghanistan, Kabul

Database Expert - NTA

[13/02/2024 - Current]

- Gather requirements and analyze needs for web application development.
- Implement front-end and back-end solutions using Laravel, Livewire, PHP, React, JavaScript, HTML, CSS, and Bootstrap.
- Collaborate with teams to translate requirements into specifications.
- Write maintainable code and create responsive user interfaces.
- Conduct testing and debugging to ensure quality deliverables.
- Maintain existing applications and produce technical documentation.
- Stay updated on industry trends and foster a collaborative environment.

Bakhtar University - Afghanistan, Kabul

Business or sector Education | **Department:** Computer Science

Web developer

[04/04/2020 - 16/09/2021]

- Developed responsive websites with PHP, Laravel, JavaScript, React, and Vue.js, ensuring code quality and security.
- Collaborated with teams on design integration and conducted testing and debugging.
- Managed databases and provided technical support to users.

Asanzon Software House - Afghanistan, Kabul

Web Developer

[14/02/2019 - 10/03/2020]

- Developing and maintaining web applications using PHP and Laravel.
- Creating front-end interfaces with React, JavaScript, Bootstrap, and Material-UI.
- Designing and implementing MySQL databases.
- Collaborating with teams to define, design, and deliver new features.
- Troubleshooting and upgrading existing software.

Afghan United Bank - Afghanistan, Kabul

IT Support Assistant

[03/05/2023 - 13/02/2024]

- Provide technical support to end-users for software and hardware issues.
- Manage user accounts on Windows Server and ensure access controls.
- Troubleshoot access issues, including password resets and lockouts.
- Perform system updates and maintain network infrastructure.
- Diagnose network connectivity issues and educate users on best practices.

NOIA Organization - Afghanistan, Kabul

IT Manager

[19/08/2021 - 06/04/2023]

- Led the IT department, managing system administration, network infrastructure, and IT support.
- Developed and enforced IT policies to enhance security and operational efficiency.
- Implemented IT projects from planning to completion, ensuring they met deadlines and budget constraints.
